User's manual

Technical Specifications:

REFERENCE	AE-PMA
MAGNET	Neodymium
SPEAKER SIZE	Ø 14mm
IMPEDANCE	32Ω ±1%
FREQUENCY	1KHz - 20KHz
SENSITIVITY	110dB ±5dB
WIRE	120cm ±5cm
PLUG	Ø 3.5mm

Using the earphones

- ❖ Insert plug into jack, put earphones in ears, adjust volume.

Important safety instructions

Hearing safety

- ❖ To avoid hearing damage, limit the time you use headphones at high volume and set the volume to a safe level. The louder the volume, the shorter the safe listening time.
- ❖ Be sure to observe the following guidelines when using headphones.
 - Listen at reasonable volume levels for reasonable periods of time.
 - Be careful not to turn up the volume continuously as your hearing adapts.
 - Do not turn the volume up so high that you cannot hear your surroundings.
 - In potentially hazardous situations you should exercise caution or discontinue use temporarily.
 - The use of earphones with both ears covered while driving is not recommended and may be illegal in some areas.
 - For your safety, avoid distractions from music or phone calls while in traffic or other potentially hazardous environments.

- This is not a toy: Use by minors under adult supervision.
 - Do not ingest silicones and/or sponges.
 - Do not share after use without first cleaning.
- ❖ About temperatures and humidity. Storage and operation.
- Use or store in a place where the temperature is between -20°C (4°F) and 60°C (140°F) (up to 90% relative humidity).
 - Protect the item from moisture and heat sources.

Declaration of Conformity

Actia Sourcing & Solutions, SL. hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. You can find the Declaration of Conformity at <https://www.actia-ss.com/en/support>

Symbols and information on equipment recycling

- ❖ This symbol on a product means that the product is regulated by the European Directive 2012/19/EU. This product must not be disposed of as unsorted waste but must be taken to separate collection facilities for recovery and recycling to avoid risks to environmental health and safety.
- ❖ The transport packaging is mainly made of corrugated cardboard and is identified with its mandatory symbology.
- ❖ The bag used to transport multiple units is made of recycled low-density polyethylene (PE-LD) and is identified with its reference symbology.
- ❖ The products that must bear the CE marking are those established in the New Approach Directives, whose origin is Regulation 765/2008 and Decision 768/2008, which contain the assessment procedures.
- ❖ This symbol guarantees that the packaging is compostable according to the European standard EN 13432. It must be disposed of in the organic container, the brown one.
